December 6, 2018

Honorable Ajit Pai
Chairman
Federal Communications Commission
445 12th Street SW
Washington, D.C. 20554

Dear Mr. Chairman:

The Universal Service Administration Company (USAC) administers the guidance and policy of the Federal Communications Commission (FCC) ensuring broadband connectivity reaches millions of Americans. By connecting those in need with available resources and expanding their capabilities, USAC continues to make a difference. The funds they administer are critical to closing the digital divide bringing work, education, healing, and communication to rural communities.

That is why I recommend Mrs. Julia B. Legg, West Virginia's E-rate Coordinator, to the Board of Directors of the USAC. Ms. Legg has worked diligently to ensure our state has its share of available resources so that our state may bridge the digital divide. Furthermore, she has managed to appropriately allocate funds to maximize efficiency in regions most in need. Her voice will represent not just West Virginians living in rural communities, but that of all Americans. As a member of the West Virginia Broadband Enhancement Council's Education Committee, her experience has been critical to extending broadband access into underserved and unserved areas of West Virginia.

West Virginia had fallen behind in terms of broadband, but with individuals such as Ms. Legg, we are working towards a stronger, better-connected state. She has been an invaluable resource to our state and I ask that you give her application consideration to be a member of the Board of Directors of the USAC.

Sincerely,

Shelley Moore Capito
United States Senator

FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON

OFFICE OF
THE CHAIRMAN

December 13, 2018

The Honorable Shelley Moore Capito
United States Senate
172 Russell Senate Office Building
Washington, D.C. 20510

Dear Senator Capito:

Thank you for your letter supporting the appointment of Ms. Julia Benincosa Legg to serve on the Universal Service Administrative Company's Board of Directors as a representative of schools. I appreciate the information you provided regarding Ms. Legg's experience with the E-rate program, including her years of experience as a member of the Education Subcommittee of the West Virginia Broadband Enhancement Council.

Please be assured that I will carefully consider your recommendation of Ms. Legg's credentials as I make final decisions regarding the Board of Directors over the coming week.

Sincerely,
